

IS IT TIME FOR PLANET B?

Should we consider
extra-terrestrial
settlements now
and where do we
see our future?

Do we fall for
a fallacy by
thinking that
we can migrate
to "Planet B"?

Do we need
to care about
our Earth's
sustainability
at all?

SATURDAY, 21st January, 2023

Quarry Hill Campus, Leeds City College, LS2 7BS, UK
and ONLINE

Panellists

Prof Kathryn Denning

York University, Toronto, Canada

Dr Jack Lissauer

NASA Ames Research Center, USA

Dr Erika Nesvold

JustSpace Alliance, USA

Prof Martin Rees

University of Cambridge, UK

Dr Anders Sandberg

University of Oxford, UK

Prof Chris Thomas

University of York, UK
