

Summer School 2018

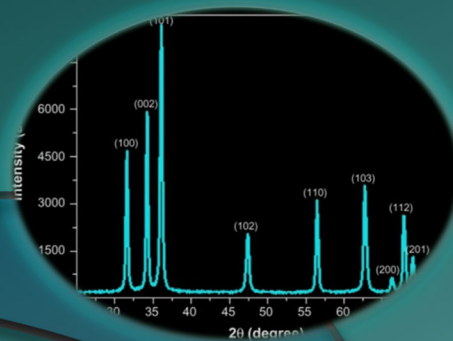

Catalysis and Energy: From Synthesis to Application

2.-7. September 2018

Wissenschaftspark Gelsenkirchen, Germany

*Extensive
involvement of
the participants*

Lecturers:

Saskia Heumann

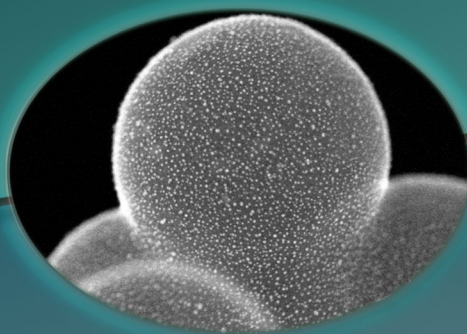

Holger Ruland

Robert Schlögl

Annette Trunschke

Christophe Werlé

*More speakers will be
announced soon*

*For graduate students
and scientists new
in the field*

*Fundamental aspects in
catalysis from materials
to application*

- **Concepts**
- **Inorganic Chemistry**
- **Solid Synthesis**
- **Molecular Synthesis**
- **Nanoparticles**
- **Organometallic Reagents**
- **Characterization**
