

First Announcement

Frontiers in Environmental Radioactivity

Organised by the STFC Env-Rad-Net
and the RSC Radiochemistry Group

January 6th and 7th, 2016,
Royal Society of Chemistry, Burlington House, London

The STFC Environmental Radioactivity Network and the Royal Society of Chemistry Radiochemistry Group are pleased to announce an up-coming 2-day symposium: 'Frontiers in Environmental Radioactivity'. The meeting will be held at the RSC's London Home, Burlington House on January 6th and 7th 2016.

The symposium will focus on recent and future advances in Environmental Radioactivity research with an emphasis on the use of advanced techniques including Synchrotron, Laser, Neutron, and Scientific Computing facilities. Topics covered will include research in key scientific challenge areas of: (i) radioactive contaminated land management, (ii) geological disposal of radioactive wastes, (iii) nuclear incident response, and (iv) radionuclide behaviour in the natural environment.

The symposium will consist of oral and poster sessions with keynote presentations from a number of international speakers. The program will also include an evening conference dinner.

Confirmed speakers:

Prof. Steve Conradson (Soleil MARS beam-line)

Prof. Katherine Morris (University of Manchester)

Prof Nik Kaltsoyannis (University of Manchester/UCL)

Prof. Annie Kersting (LLNL)

Dr. Louise Natrajan (University of Manchester)

Prof. Kevin Rosso (PNNL)

We welcome abstracts for talks and posters (A0) from the community in the aforementioned research areas.

There is no registration fee for this event and travel (reasonable travel expenses), accommodation and meals will be provided. We welcome registration from academia, industry, and in particular from early career researchers.

Registration for the event and accommodation, and submission of abstracts, can be completed online at <http://www.envradnet.co.uk/frontiers-2016>

Due to venue restrictions we are limited to a maximum of 100 attendees. The organisers reserve the right to be selective with regard to allocating presenter / delegate status to ensure fair representation across the community.

Registration and Abstract Submission Deadline:
27th November 2015.

Notification regarding presentations:
11th December 2015.
