

Protein-Protein Interaction Network Young Researchers Symposium

Imperial College London, 7th April 2014

Plenary Lecture:
Prof. Geoff Barton – Dundee

Keynote Speakers:
Dr Xavier Morelli – CNRS, France
Dr Rivka Isaacson – King's College London

Attendance is Free

This symposium provides a platform for early career Protein-Protein Interaction researchers from a broad range of backgrounds to come together, share their work and discuss the latest research. In addition to our excellent guest speakers, there will also be opportunities for young researchers to present their work through short talks and posters. Please submit your abstract when you register for the symposium.
