Symposium areas

Coordination Chemistry
Organometallic Chemistry
Homogeneous Catalysis
Bioinorganic Chemistry
New Materials
Nanomaterials in Inorganic Chemistry
Electrochemistry and Inorganic Chemistry

Important dates

Beginning inscription: March 1st, 2011.

Deadline for submission of abstracts: March 1st, 2011.

The main goal of this symposium is to gather the Latin American community which involved in scientific activities in the areas of Coordination and Organometallic Chemistry. The Third Latin American Symposium will be held on July 26-29-2011 in the city of La Serena, Chile.

This event is intended Latin American community in the disciplines related to inorganic and organometallic chemistry, homogeneous catalysis, materials, new materials, bioinorganic chemistry and nanomaterial in inorganic chemistry, with worldwide participation of speakers in the areas covered by this international Symposium.

The Organizing committee invites the national and international community to participate in this event, which will enable participating groups to establish future collaborations and also is an opportunity to visit a beautiful region in northern Chile.
