

Biomolecule Analysis - A Multi-Faceted Approach

12 March 2013
Cambridge

Speaker: Dr David Neville

Dr David Neville is a Technical Expert, specialising in carbohydrates and proteins. David trained in the analysis of biological carbohydrates at Oxford University and the Department of Biochemistry, Dundee and has published a number of peer-reviewed articles on the subject. He has also worked in a number of academic and private companies in the UK and US.

Join us on the **12 March** at Cambridge Science Park when we will be hosting a **FREE** breakfast meeting focusing on bioanalytical approaches to molecular characterisation.

This briefing session will include:

- Complexities of large protein analysis
- Characterisation of N-linked oligosaccharides
- Identification of protein modifications
- Benefits of successful outsourced partnering

This is an ideal opportunity for you to gain a valuable insight into how to overcome the complexities of bioanalysis.

Registration will open at 8.30am for a 9.00am start. Breakfast and refreshments will be provided throughout the morning and the meeting will conclude at 11.00.

Book early to guarantee your place.

Biomolecule Analysis – A Multi-Faceted Approach

12 March 2013 - Cambridge

To reserve your place please complete this form and fax to 0118 986 8932 or post to: Lorraine Povey, RSSL, Reading Science Centre, Whiteknights Campus, Pepper Lane, Reading, RG6 6LA, UK.

For further information please contact Lorraine Povey

Tel: 0118 918 4000 Email: Lorraine.ma.povey@rssl.com

Confirmation of your booking and directions to the venue will be sent to you by email.
