

Microfluidics: from laboratory tools to process development

Rueil-Malmaison (near Paris), France ■ 4 - 5 November 2015

Call for papers

www.rs-microfluidics2015.com

You are involved in biology, chemistry, earth sciences and physics disciplines: then join us!

Main sessions include:

- basic science with microfluidics
- analysis and micro-measurement
- new development for microfluidic devices
- toward industrial applications

**Submit your abstracts by mail
to microfluidics2015@ifpen.fr**

before 30 March 2015!
