Analytical Research Forum 2016

8 July 2016, London, United Kingdom

Our 2016 meeting gives you the opportunity to promote your company to the community in a high-impact environment. You'll see young researchers present their work and internationally renowned analytical scientists will be speaking.

Themes include

Human health and disease, forensics and environmental analysis.

Experimental approaches will include cutting edge mass spectrometry, related profiling technologies, as well as separation and elemental analytical techniques.

Approx. delegate numbers: 120
