

Humber Chemical Focus

Process Safety – The Human Factors

28th September 2007

CATCH, Kiln Lane, Stallingborough, DN41 8TH

Process Safety in the Petrochemical and Chemical industries remains of paramount importance.

Recent incidents, such as Texas City and the subsequent Baker investigation provide the opportunity for improvement and learning to all those professionals working across the industry.

This HCF conference offers an opportunity, in the Humber, to hear and discuss from leading organisations how a focus on Human Factors can be a key strategy in the successful management of Process Safety. Speakers have been drawn from BP plc's new senior safety leadership team as well as ConocoPhillips, the Health and Safety Executive and the Keil Centre.

| | |
|----------------|--|
| 08:45 to 09:00 | Arrival, Registration and Coffee |
| 09:00 to 09:15 | Welcoming Introductions & Safety Briefing Glyn Hughes (Humber Chemical Focus) |
| 09:15 to 09:45 | The Human Factors challenges at a complex refinery for safe and reliable operations Peter Jefferies (ConocoPhillips) |
| 09:45 to 10:30 | Texas City and the Baker Panel Report Gareth James (BP Group) |
| 10:30 to 10:45 | Coffee Break |
| 10:45 to 11:30 | The impact of Texas City for HSE regulation of the Chemical Industry Neil Johnson (Health & Safety Executive) |
| 11:30 to 12:15 | Human Factors in Process Safety: Proactive & Reactive Approaches Ronny Lardner (Keil Centre) |
| 12:15 to 12:30 | Discussion Forum & Event Round-up |
| 12:30 | Lunch |
| 01:00 | Optional Tour of CATCH Including the new TTE Process Simulator |

Making Chemistry Work

A private link will be emailed to all delegates after the event for a copy of the presentation slides.
Delegates will be charged a gate fee for this event. £75 Members, £125 Non-members.
