2011 Distinguished Guest Lecture & Symposium

# The Nitrogen Cycle – in a fix ?

A one-day symposium organised by the Environmental Chemistry Group and Environment, Sustainability and Energy Division of the Royal Society of Chemistry, incorporating the 2011 ECG Distinguished Guest Lecture, given by Prof James Galloway (University of Virginia)

Where: **The Royal Society of Chemistry, Burlington House, Piccadilly, London**  
When: **Wednesday 9<sup>th</sup> March 2011**

## Programme

1200 Lunch, Coffee

**1300 Dr Mark Sutton, Centre for Ecology & Hydrology**  
*The atmospheric nitrogen cycle and climate*

**1345 Prof Tim Jickells, University of East Anglia**  
*Atmospheric nitrogen inputs to the marine environment*

1430 Tea / Coffee; ECG Annual General Meeting

**1500 Prof Brian Chambers, ADAS consultants / Prof Keith Goulding, Rothamsted**  
*Optimising Nitrogen Use Efficiency in Agriculture*

**1545** Introduction to the 2011 Lecture and presentation of the ECG DGL medal

**1550 DGL: Prof James Galloway, U. Virginia**  
*Nitrogen: A Story of Food, Feed and Fuel*

**1650 General Discussion**
