

RSC-CHEMISTRY BIOLOGY INTERFACE DIVISION AWARDS SYMPOSIUM

Thursday, 18 April 2013

Main Lecture Theatre, Joseph Black Building, University of Glasgow

- 9.30 *Arrival, coffee/tea biscuits, poster viewing*
- 10.00 **Prof. Rob Liskamp** (University of Glasgow)
Opening Remarks, "Chemical Biology in Glasgow"
- 10.45 **Prof. Mark Bradley** (University of Edinburgh)
"Two Adventures in Chemical Biology - Palladium Mediated Cellular Chemistry and in vivo Imaging"
- 11.30 **Prof. Raymond Bonnett** (Queen Mary, University of London)
Sosnovsky Award Lecture
"Chemical Aspects of Photodynamic Therapy - and the m-THPC Story"
- 12.15 *Lunch, poster viewing*
- 13.30 **Prof. Stefan Przyborski** (Reinnervate, Durham University)
Cornforth Award Lecture
"Development of New Technologies and Assays to Investigate the Growth, Structure and Function of Cells in Health and Disease"
- 14.15 **Prof. David O'Hagan** (University of St. Andrews)
"Biotechnological Applications for Enzymatic Fluorination"
- 15.00 *Coffee/Tea, poster viewing*
- 15.15 **Prof. Rein Ulijn** (University of Strathclyde)
"Minimalistic Bioinspired Chemistry: Doing More with Less"
- 16.00 **Dr. Judy Hirst** (MRC Mitochondrial Biology Unit, Cambridge)
Heatley Award Lecture
"Mitochondrial Complex I: What do we know about the mechanism of energy transduction?"
- 16.45 *Closing Remarks*
- 16.50 *Reception*
