5th Annual Eastern Europe Regulatory Conference: Registration of Plant Protection Products

11 - 12 April 2017 | Budapest, Hungary

**A conference aimed at gaining
a better insight of the EU
regulatory procedures**

In association with the Hungarian Ministry of Agriculture, the conference focuses on the registration of plant protection products, specifically aimed at supporting SMEs across Europe.

Returning to the Sofitel Chain Bridge Hotel, Budapest, the 5th Eastern Europe Regulatory Conference will yet again attract both industry professionals and representatives from across Europe.

The conference aims to help SMEs from Eastern Europe to get a better insight of the EU procedures and at the same time help Western EU companies to better understand the local specifics of the regions. It is an attempt to form a bridge across the European Union. In addition to practical advice for industry on product authorisations, the theme of the event will also cover more general topics such as emergency and minor uses, practical experiences with Article 43 and an update from the Commission on the active substance renewal programme.

As with previous conferences, the event will offer informative and stimulating presentations with plenty of networking opportunities, including a drinks reception.
