

Regulatory Summit Europe 2019

14 -15 OCTOBER 2019 | BRUSSELS, BELGIUM

Join our expert panel in Brussels this October

Our Global Regulatory Summits are held annually in Europe, Asia and North America. The European and North American Summits are scheduled in October, and the Asia Summit is normally held in November.

Chemical Watch Global Regulatory Summits have been held since 2013, serving the global regulatory community by offering annual updates on important developments in chemicals control legislation from around the world.

The annual Summits bring together hundreds of participants and speakers from regulators and international organisations, as well as experts from industry and academia, together with the service provider community.

The European Regulatory Summit is partnered with the Chemical Watch Enforcement Summit, which offers special perspectives and understanding of European and global regulatory enforcement challenges.

Who should attend?

- Regulatory affairs managers
- Compliance managers
- Risk assessment managers
- Product registration managers
- EHS professionals
- Government regulators
- Toxicologists
- Product stewards
- Service providers
- Lawyers
- Consultants

Why attend?

Expert panel – Learn about the latest regulatory challenges facing the safe management of chemicals.

Current thinking – Meet regulators from North America and Asia without leaving Europe.

Time efficiency – Bring yourself completely up-to-date with the complex and changeable landscape of chemicals management for electronics and electricals in North America, Europe and the rest of the world by attending the two-day conference.

Focus – Meet the experts and listen to the latest thinking across a wide range of jurisdictions.

Up-to-date information – Pick up practical compliance tips and get completely up to date with emerging regulatory challenges.

Networking – Make new industry contacts.

13:30 **RoHS Panel Discussion including Q&A**

Karolina Zazvorkova, Policy Officer, European Commission, Belgium

Doreen Fedrigo, Senior Programme Manager, European Environmental Citizens' Organisation for Standardisation (ECOS), Belgium

Session 2: Developments from North America

14:00 **The NGO response to United States EPA's implementation of the new TSCA**

- Since the 2016 overhaul of the Toxic Substances Control Act (TSCA) NGOs have lodged cases in the U.S. courts challenging nearly every aspect of the Environmental Protection Agency's (EPA's) implementation of the new law.
- The NGOs have had some successes and some losses in the courts.
- This has caused EPA to change its procedures on some issues, to hold firm in others; yet a number of significant judgments are yet to be handed down.
- The impact of NGO engagement parallels to some degree the involvement and impact of NGOs on REACH implementation.

Herb Erstreich, Partner, Keller and Heckman LLP, USA

14:30 **TSCA - New Chemicals Update**

15:00 **Industry perspective on working with US TSCA**

Adriana Jalba, Director Advocacy EU, ICL Industrial Products, Belgium

15:30 Q&A
