

Challenges in Inorganic Chemistry

ISACS

10–13 April 2017
Manchester, UK

rsc.li/isacs-2017-inorganic

Themes

Main Group Chemistry

Metals in Biology and Medicine

Organometallic Catalysis and
Small-Molecule Activation

Functional Inorganic Materials

Spectroscopy and Magnetism of
Coordination Compounds

Speakers

Serena DeBeer

Max Planck Institute for
Chemical Energy Conversion

Odile Eisenstein

Université Montpellier

Stephen Faulkner

University of Oxford

Danna Freedman

Northwestern University

Thorfinnur Gunnlaugsson

Trinity College Dublin

Michael Hill

University of Bath

Patrick Holland

Yale University

Cameron Jones

Monash University

Amy Prieto

Colorado State University

Peter Roesky

Karlsruhe Institute of Technology

Sylviane Sabo-Etienne

Université de Toulouse

Eric Schelter

University of Pennsylvania

Norihiro Tokitoh

Kyoto University

Key deadlines

Oral abstract submission

24 October 2016

Poster abstract submission

30 January 2017

Bursary applications

20 February 2017

Early bird registration

20 February 2017

Final registration

13 March 2017

Registered charity number: 207890
