

Georgia Institute of Technology**Georgia Tech Student Center, 115 Student Center Theater - Level 1 Commons****Note: The poster session will be held in the Piedmont Room****23rd July 2014**

Time	Event
9:00-9:45	Morning coffee
9.45-10.00	Opening remarks , Fiona McKenzie and Seth Marder
10.00-10.45	Zhiqun Lin, Georgia Institute of Technology A Robust Strategy to Monodisperse Plain, Core/Shell, and Hollow Nanocrystals with Superior Solubility and Precisely Controlled Compositions and Architectures
10.45-11.30	Khalid Salaita, Emory University Using Light to Visualize and Manipulate Molecular Forces in Living Systems
11.30-12.15	Nazanin Bassiri-Gharb, Georgia Institute of Technology Chasing Extrinsic Size Effects in Ferroelectric Materials
12.15-13.30	Lunch
13.30-14.15	Natalie Stingelin, Imperial College London 'Cool' Plastics: Towards novel heat management concepts based on solution-processable polymers and inorganic/organic hybrid systems
14.15-15.00	Kenneth Sandhage, Georgia Institute of Technology Title to be confirmed
15.00-15.30	Afternoon break
15.30-16.15	Valerie Ashby, University of North Carolina at Chapel Hill Functionalized biomaterials: from shape memory materials to computed tomography contrast agents
16.15-17.00	Gleb Yushin, Georgia Institute of Technology Nanocomposite Electrodes For Next Generation Lithium Ion Batteries
17.00-17.15	Closing remarks
