16th International conference on materials chemistry (MC16)

3–6 July 2023, Dublin, Ireland

You are warmly invited to join us in Dublin in July 2023. The international conference on materials chemistry has been a key meeting in the materials calendar for three decades.

Organised by the Royal Society of Chemistry, the 2023 conference will host leading materials researchers from around the world. It's the flagship event for the RSC Materials Chemistry Division - and you can be a part of it.

Oral and poster presentation opportunities are available to researchers of all career stages and we invite you to submit an abstract to make your contribution.

The conference promises to be a great forum for materials chemists to network with and build strong collaborations within their community and related disciplines. We look forward to welcoming you to Dublin in July 2023.
