

One-Day Bioorganic Symposium

University of Leicester Tuesday 23rd September 2008

Invitation to register and Call for abstracts (Deadline 1st August 2008)

The RSC Bioorganic Group (BOG) would like to invite those involved in any aspect of biological chemistry to an informal one day symposium (10.00 am-5.00 pm) to be held on **Tuesday 23rd September 2008**.

Aim of meeting: There is no particular theme to this meeting and it intended to provide an opportunity for discussion of exciting and new research in any aspect of biological chemistry. The meeting is for all researchers, but it is intended that the meeting will in particular, provide a chance for new academic staff members or post-doctoral workers to communicate their latest results.

Presentations: The meeting will consist of a series of short talks and time available to view poster presentations. The short talks (20 mins + 5 mins questions) will be entirely selected from abstract submissions. Further details about preparing talks and posters will be sent to all attendees once the registration date has passed.

Registration: Anyone wishing to attend the meeting must register before **1st August 2008** by contacting Glenn Burley - see below for contact details. The registration fee is £20 (which covers refreshments, buffet lunch and wine mixer at the end of the meeting) and cheques should be made payable to “*Bioorganic Group*” and should be sent to Glenn (contact details are at the bottom of the page). If preferred, arrangements can be made to pay by cash on the day of the meeting, but you must still register with Glenn in advance.

Abstract submission: If you wish to give a presentation (oral or poster) please submit a short abstract to the same address. The abstract should be sent as a PDF and be no more than one side of A4. The Abstract should contain contact details of all contributors to the study, with the communicating author underlined.

Programme selection: The Bioorganic Committee will construct a programme from the submitted oral abstracts, and inform speakers by 18th August 2008.

Location: Henry Wellcome Building, Lancaster Rd, University of Leicester LE1 9HN. Details are available on the web regarding travel directions (<http://www.le.ac.uk/portals/maps/howto.html>) and campus maps (<http://www.le.ac.uk/portals/maps/mcampus.html>).
