

**33rd GP₂A Annual Conference
and
XIVth Paul Ehrlich MedChem Euro-PhD Network
Meeting**

**11-13th June 2025
Nantes, France**

Keynote Speakers

Register: https://bit.ly/GP2A_2025

Prof. Maria Laura Bolognesi

University of Bologna, Italy

*Leveraging medicinal chemistry for
the United Nations Sustainable
Development Goals*

Register: https://bit.ly/GP2A_2025

Prof. Serge Van Calenbergh

Ghent University, Belgium

*Purine nucleoside analogues as
promising agents against protozoan
pathogens in humans and livestock*

Register: https://bit.ly/GP2A_2025

Associate Prof. Trinidad Velasco-Torrijos
Maynooth University, Ireland

*Glycoconjugates as anti-virulence agents
to combat fungal infection*

Register: https://bit.ly/GP2A_2025

Prof. Michele Vendruscolo

University of Cambridge, UK

*Expediting Drug Discovery for
Undruggable Targets Using AI*

Register: https://bit.ly/GP2A_2025

Associate Prof. Stephanie Federico
University of Trieste, Italy

*Casein Kinase 1: Where We Are and
Where We are Going?*

Register: https://bit.ly/GP2A_2025

Miguel Angel González Cardenete

University of Valencia, Spain

*Discoveries in natural products
chemistry from renewable biomass:
addressing synthetic and therapeutic
challenges, abietanes' story*

Register: https://bit.ly/GP2A_2025

Dr. Rachael Dickman
University College London, UK

*Discovery and Structure-activity
relationships of cyclic
antimicrobial peptides*

Register: https://bit.ly/GP2A_2025

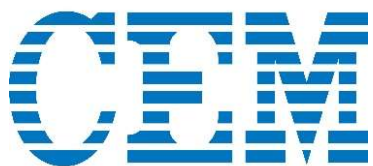

Prof. Christophe Rochais

University of Caen, France

*Pleiotropic prodrugs: a
polypharmacological approach
to the treatment of
neurodegenerative diseases*

Register: https://bit.ly/GP2A_2025

Thank you to all our sponsors

*drugs and
drug candidates*
