

15th International conference on materials chemistry (MC15)

12–15 July 2021, Online

A flagship event for the materials chemistry community, this international renowned conference will bring together over 550 materials researchers to focus on four key areas: materials for a changing future, materials for design and development, materials for energy and materials for life. And this year, the theme of sustainability will underpin everything.

We are pleased to offer the following marketing opportunities at the conference.
