

## First Announcement!

# 5<sup>th</sup> Anglo-Swedish Medicinal Chemistry Symposium ASMC 2011

March 20–23, 2011, Åre, Sweden

### Introduction

This symposium is the 5th meeting organized jointly between the Medicinal Chemistry Section of the Swedish Academy of Pharmaceutical Sciences and the Biological and Medicinal Chemistry Sector of the Royal Society of Chemistry, to showcase the very best medicinal chemistry in a stimulating environment. It is also designed to provide plenty of opportunities to meet other delegates, renew friendships and foster new contacts.

### Programme outline

The following sessions are planned for:

- I Kinases
- II Challenges and future directions in medicinal chemistry
- III Breakthroughs in ADME and chemical biology – impact on drug hunting
- IV Enzyme inhibitors
- V Receptors

The meeting will consist of 18 lectures, including: **Kevin Shokat**, UCSF, USA, **Tony Wood**, Pfizer, UK, **Martin Drysdale**, The Beatson Institute, UK and **Peter Sjö**, AstraZeneca R&D, Sweden.

There will be an evening poster session and we welcome abstracts for consideration; full details of the format etc will be circulated nearer the time.

### Organizing Committee

Dave Alker, David Alker Associates, UK  
Adrian Hall, Eisai Ltd, UK  
Carlos Garcia-Echeverria, Sanofi-Aventis, France  
Charles Hedgecock, Meira Life Science AB, Sweden  
Kevin Dack, Pfizer, UK  
Ed J Griffen, AstraZeneca R&D, UK  
Thomas Hansson, AstraZeneca R&D, Sweden  
Agneta Larhed, Swedish Academy of Pharmaceutical Sciences, Sweden.

**Please circulate this information widely around your networks.**
