IMAP 2018 is held under the auspices of the Protein & Peptide Science

Group of the Royal Society of Chemistry and organised by Peptide Conferences.

8th International Meeting on Antimicrobial Peptides

Conference Co-Chairs

Steven Cobb

Durham University

Julia Dorin

University of Edinburgh

Antibiotic resistance is increasing, putting at risk the whole basis of modern medicine and surgery. The need for new antimicrobial agents is urgent and peptides are showing great promise.

Antimicrobial peptides (AMPs) have also been shown to play a part in regulation and modulation of the immune system, hence their alternate name of host defence peptides (HDPs).

IMAP 2018 will cover both the antimicrobial activity of peptides as well as their role in regulation and modulation of the immune system.

Scientific Programme

- Design, synthesis & mode of action of AMPs / HDPs
- Human & veterinary therapeutic applications of AMPs / HDPs
- Role of AMPs / HDPs in fertility & reproduction
- Peptide biomaterials, peptide-polymer hybrids
- Susceptibility testing of AMPs

Confirmed Speakers

- Annelise Barron, Stanford School of Medicine, USA
- Margaret Brimble, University of Auckland, New Zealand
- Matthew Cooper, University of Queensland, Australia
- Kieran Meade, Teagasc, Ireland
- Victor Nizet, UCSD, USA
- Jennifer Payne, Monash University, Australia
