

Scientific Colloquium Spring - 2020

Conference Aim

The conference aims to focus at novelties in various fields of material science and chemistry but not limited to:

-  **Advanced Materials**
-  **Renewable & Sustainable Energy**
-  **Nano-Science & Technology**
-  **Climate & Environmental Studies.**
-  **Material Synthesis (Organic & Inorganic)**

A Conference on Contemporary Chemistry
20 - 21 March 2020

In Collaboration with

Objectives

Scientific Colloquium, Spring-2020 on contemporary chemistry is being organized by the Department of Chemistry, Government Postgraduate College, Jhelum on 20th and 21st March, 2020 in collaboration with Punjab Higher Education Commission & Department of Chemistry QAU. The conference aims at providing a platform for active researchers both national and international to share and discuss latest developments and various fields of chemistry including advanced materials, climate, renewable energy, catalysis, nano technology, synthesis and characterization techniques etc.

It also provides knowledge seekers including researchers, industry and academia from across the country and abroad to broaden their collaboration in the areas of mutual interest to serve the humanity.

The conference programme will consists of keynote lectures by renowned academicians having excellence in their respective fields. It will be followed by invited lectures and question answer session. Poster presentations from young scientists will be held during tea breaks.
