

26–27 July 2021

ISF-2021 YOUNG International Solar Fuels Conference 2021

The pre-conference of ISF-2021 for YOUNG scientists to share and discuss their research with each other. Abstracts for oral or poster presentations are welcomed from students, post-docs and all early-career researchers on the following themes:

Multi-electron/multi-proton catalysis (homogeneous, heterogeneous, enzymatic and bioinspired processes)

Light-harvesting and light-driven processes

Photoelectrochemistry

Photobiological approaches

Metabolic engineering

Devices and demonstration: robustness, sustainability and upscale

Oral abstracts

6 April 2021

Poster abstracts

7 June 2021

Registration

12 July 2021

Speakers include Shelley Minteer (University of Utah, US).
YOUNG committee co-chairs, Nolwenn Gueguen (INRAE, France)
and Holly Redman (Uppsala Universitet, Sweden)
