& Socially Sustainable Development,*
World Bank

Jaromir JECH,
Executive Vice President,
**Union of Towns & Municipalities
(Czech Republic)**

Daniel Zimmer,
Executive Director,
**World Water Council, Marseille,
France**

naseba is bringing its **water management series** to Europe, where city expansion in the east and the upkeep of older systems in the west are creating both challenges and business opportunities for sewer, irrigation and water supply systems.

In this unique format, **Water Expansion Congress Europe** is hosting **up to 150 upper-level executives** from industry and municipality water services looking for in-depth technical knowledge and competitive water management solutions.

Previous Edition Media Partners Include

▶ Educational Session

Learn how to manage your water resources and assure quality processing

▶ Prescheduled business meetings

Discuss your future projects with water management specialists.

Find tailor-made solutions to improve the quality and efficiencies of your water management systems.

▶ Networking opportunities

Enjoy networking functions at a 5-star event venue.

An exclusive format

GLOBAL *expansion*
SERIES

A Global Expansion Series event

a dynamic two-day platform created for busy decision makers to conduct business in their respective infrastructure sectors through prescheduled, one-to-one business meetings coupled with educational and networking sessions.

Participants

Sectors

Municipalities
Industries
Distributors

Positions

C-Level Executives
Directors of Environment
Heads of Water Services
Technical Directors /Heads of Engineering
Plant Directors
Quality Managers

Municipality Main Projects

Desalination plant construction
Green Technologies
Power & water plant construction
Independent water & power projects (IWPP)
PPP/BOT Projects
Water network projects
Water wells drilling projects
Overhaul works
Pipelines replacement
Water conveyance projects
Water storage projects

Invited Municipalities/ Ministries from the following countries

Austria
Albania
Bulgaria
Croatia
Czech Republic

Germany
France
U.K.
Hungary
Italy
Poland
Spain
Slovenia
Slovakia
Romania
Ukraine
Georgia
Kazakhstan

Industries

Power Companies
Chemical / Pharmaceutical
Refinery / Petrochemical
Automotive
Pulp & Paper
Mining / Minerals
Iron & Steel
Electronics / Micro-Electronics
Oil and Gas / Industrial Gases
Food & Beverage
Textile
Hotels

Invited Companies

Bayer
Unilever
BP
Nestle
Procter & Gamble
Coca Cola
Pepsi
Gazprom
Novartis
Statoil
Arcelor Mittal

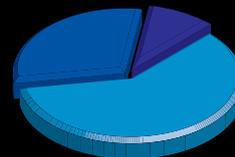

General Motors
Shell
Kimberly Clark
Danone
Johnson & Johnson
Aventis Pharma
Volkswagen
BASF
Dow Chemicals

Distributors

Some of the invited distributors include:

Aqua Purification Systems
International Water Treatment
Good Water Warehouse
Donamarc Water Systems
Bosta B.V.
Caldic
Dimm

Geographical Representation

CEE - Central and Eastern Europe - 60%

CIS - Commonwealth of Independent States - 30%

Western Europe - 10%

Topics to be addressed

- Water management and planning
- Advancements in the Desalination and Water Reuse Market
- Biofouling in membranes: New methods of prevention
- Hydrological modelling
- Waste water management
- Water quality
- Reuse of waste water using membrane technology
- Private sector participation in the water industry
- Pollution control
- Groundwater flow problems
- Irrigation problems
- Water markets in Eastern Europe
- New metering and billing systems
- Development of water resources and infrastructure
- Water conservation and demand management
- Decision support systems
- Demand management
- Flood Risk Management
- Filtration Technology
- Industrial waste water treatment
- Biochemical processes for water treatment
- Sludge treatment

Solution Provider Categories

Each category has limited solution providers to ensure maximum opportunities to conduct business.

- Water Treatment
- Water Desalination
- Transport and Storage
- Process Control Technology & Process Automation
- Research & Consultancy
- Project/Executive Management
- Other Services

Water Management Series Sponsors Include

ASHLAND

PARSONS
