

GRS *Gordon Research Seminars*

Announcing the 2015 Gordon Research Seminar on:

Hydrogen-Metal Systems

Hydrogen: From Production to Applications

Date and Location:

July 11-12, 2015
Stonehill College
Easton, MA, USA

Organizers:

Chair: Terry Humphries
Associate Chair: Elsa Callini

Meeting Description:

The GRS on Hydrogen-Metal Systems is a unique forum for graduate students, post-docs, and other scientists to present and exchange new data and most recent innovations in hydrogen-metal research.

Topics to be discussed include production of hydrogen, the analysis of materials, the detection of hydrogen and future applications of these systems.

Effective Communication in Science

A mentoring session comprising some of the foremost researchers in the field will explore the art of writing high impact scientific articles and research proposals.

More details and online application are available at:
