

10–13 April 2017, Manchester, UK

Challenges in Inorganic Chemistry

ISACS

Themes

Main Group Chemistry

Metals in Biology and Medicine

Organometallic Catalysis and Small-Molecule Activation

Functional Inorganic Materials

Spectroscopy and Magnetism of Coordination Compounds

Speakers

Serena DeBeer

Max Planck Institute for Chemical Energy Conversion

Odile Eisenstein

Université Montpellier

Stephen Faulkner

University of Oxford

Danna Freedman

Northwestern University

Thorfinnur Gunnlaugsson

Trinity College Dublin

Michael Hill

University of Bath

Patrick Holland

Yale University

Cameron Jones

Monash University

Amy Prieto

Colorado State University

Peter Roesky

Karlsruhe Institute of Technology

Sylviane Sabo-Etienne

Université de Toulouse

Eric Schelter

University of Pennsylvania

Norihiro Tokito

Kyoto University

Scientific Committee

Richard Layfield (Chair)

The University of Manchester

David Cole-Hamilton

University of St Andrews

Serena Corr

University of Glasgow

Nikolas Kaltsoyannis

The University of Manchester

Jim McCusker

Michigan State University

Nils Metzler-Nolte

Ruhr Universität Bochum

Manfred Scheer

University of Regensburg

Laurel Schafer

University of British Columbia

Zuowei Xie

The Chinese University of Hong Kong
