

Second Scottish Postgraduate Symposium on Environmental Analytical Chemistry

Wednesday 9th December 2009

Sponsored by

Royal Society of Chemistry, Analytical Division, Scottish Region

Invited speaker: Professor John Farmer, University of Edinburgh

This one day meeting is aimed at early-career scientists, including postgraduate students and postdoctoral researchers, who develop or apply chemical analysis in environmental studies. It will provide a chance for (mainly!) younger workers to meet others in their fields and to give presentations, either orally or in the form of a poster.

Time and venue

10:00 am – 4:30 pm, Joseph Black Building, University of Glasgow.

Presentation

Those wishing to present their research should submit an abstract (max 1 side of A4) before 6th November 2009. Please indicate whether you prefer oral or poster presentation. Note, however, that oral slots are limited and so the organizers may have to make a selection from those submitted.

Cost

Registration is free but spaces are limited to a maximum of 50 delegates so please register as soon as possible and, at the latest, by 13th November 2009. A sandwich lunch will be provided. Please indicate if you have special dietary requirements.

For further information, to register, or submit an abstract, contact:

Dr Christine Davidson WestCHEM, Department of Pure and Applied Chemistry,
University of Strathclyde, GLASGOW G1 1XL.
