

PBSi 2017

International Conference On
Phosphorus, Boron and Silicon

July 3-5, 2017 | Paris

CALL FOR PAPERS – PBSi 2017

From chemistry to catalysis, materials, biology, and medicine, from theory to application, the main target of this conference is to gather Researchers and Experts in Phosphorus, Boron and Silicon community in order to provide all participants with the latest progress and inputs recorded in each field.

The **International Conference On Phosphorus, Boron and Silicon** is an annual gathering with the following objectives:

- Attract high quality papers in different subfields
- Offer the opportunity to be updated on the latest research outputs on several topics
- Organize specific workshops around the most attractive and current issues
- Gather worldwide experts as conference speakers

Topics of interest include, but are not limited to:

- Recycling, green chemistry, environment impact & sustainability
- Fabrication processes and applications in the industry
- Materials science: polymers, thin films, nanopowders, ceramics, crystals, composites etc.
- Computational and Theoretical Chemistry
- Bioinorganic chemistry and application in medicine
- Energy, conversion & storage
- Catalysis processes & applications
- Optical, electrical and magnetic properties
- Advanced synthesis and characterization
- Reactions of Coordination Compounds
- General aspects of inorganic chemistry

Important Dates:

- Regular submission deadline: May 3, 2017
- Regular registration deadline: June 3, 2017
- Conference: July 3–5, 2017

Guidance for authors:

The submission must be done through Ex Ordo (<http://pbsi2017.exordo.com>) where you will have to create your own account. This abstract management system will enable you to manage your submission as you wish.

Proceedings & Publishing:

More information coming soon.
