

14th June 2017

ESRI Seminar Room 101, Swansea University Bay Campus

| | | | |
|-------------------------------|---------------|--|---------------------------------|
| Electrochemical Workshops | 9.30 – 10.15 | Cyclic Voltammetry | Dr Raman Subramanian (SPECIFIC) |
| | 10.15 – 11.00 | Electrochemical Impedance Spectroscopy | Dr Jenny Baker (SPECIFIC) |
| Break | 11.00 – 11.15 | | |
| 1 Minute Poster Presentations | 11.15 – 12.30 | An opportunity to display and discuss your research with other electrochemists from Swansea Uni | All Researchers |
| Lunch and Poster Session | 12.30 – 13.30 | A free lunch, and a chance to discuss the full range of Electrochemistry work being undertaken at Swansea University | |
| Electrochemical Applications | 13.30 – 14.00 | Scanning Vibrating Electrode Technique | Dr Carol Glover (SPECIFIC) |
| | 14.00 – 14.30 | Electrodeposition & Electrocatalysis | Dr Enrico Andreoli (ESRI) |
| Practical Lab Tours | 14.30 – 15.00 | Energy Storage as Hydrogen and CO ₂ Conversion | Robert Phillips (ESRI) |
| | 15.00 – 15.30 | Sodium-ion and Seawater Batteries | Francesco Mazzali (MRC) |
| | 15.30 – 16.00 | Metal Plating Batteries and Corrosion | (SPECIFIC) |
| Refreshments | 16.00 – 17.00 | | |

Contact details:

Robert Phillips (879302@swansea.ac.uk)

Francesco Mazzali (847222@swansea.ac.uk)
