

Wednesday 30<sup>th</sup> of May 2012

Museum of Science & Industry,  
Liverpool Road, Castlefield,  
Manchester, M3 4FP

#### AGENDA

Time	Topics
9.30-10.00	Registration
10.00-10.15	Welcome and Introduction
10.15-11.00	The Benefits Infrared and Raman Spectroscopy Can Bring Today's Laboratory
11.00-11.45	Advances in molecular instrumentation technology: materials analysis beyond imagination, how to expand your analysis horizons, how to bring simplicity and consistency to your operations, only one set up to get multiple answers. Inspired advanced analysis
11.45- 12.00	Break
12.00-13.00	Hyphenated Techniques for Materials Science and Polymers Characterization
13.00-14.00	Lunch
14.00-14.45	Infrared and Raman Microscopy which one or both? For Materials Science Research and quality control
14.45-15.15	Rheology with Simultaneous FT-IR for Materials Analysis
15.15-15.30	Break
15.30-16.30	Hands on instrument session
16.30	Close
