

FloHet-2015 Florida Heterocyclic and Synthetic IUPAC-Sponsored Conference

Organized by ARKAT USA, Inc. and the University of Florida, Department of Chemistry

*Will be held March 1st - March 4th, 2015
at the J. Wayne Reitz Union, University of Florida, Gainesville, FL, USA*

Professor Albert Padwa (Emory University) will present the first Katritzky Lecture. There also will be a short course coupled with a series of plenary and invited lectures, all within the context of heterocyclic and synthetic chemistry. This meeting should be of interest to those in academic or industrial research particularly in the pharmaceutical, agricultural and custom chemicals areas.

There will be eleven plenary lectures in six sessions given by experts from academia and industry. After the first two plenary lectures on Monday morning a short course on the topic of *Selective Direct Fluorination Strategies: Batch and Flow* given by Professor Graham Sandford (University of Durham) will run in parallel with two invited lecture sessions. On the other two mornings and the first two afternoons there will be three parallel sessions of invited lectures.

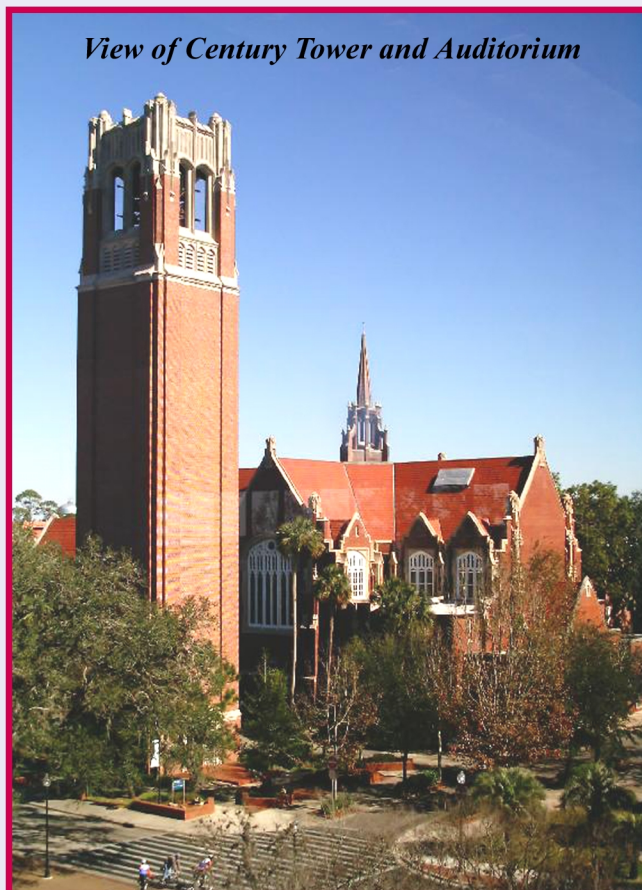

The conference will also include a Poster Session (submissions are welcome) with a prize for the best poster. Chemical companies and publishers will exhibit their products and books.

Registration fees of \$1400 Industrial, \$750 Academic, \$500 Students or Postdoctorals will include a Welcome Party, lunches, coffee and tea breaks on all three days, a buffet dinner on Monday, wine reception on Tuesday and a Farewell Party on Wednesday. Complimentary wine will be served at all evening functions but an optional charge will be made for attendance at the banquet on Tuesday evening. **Special Academic Package** - \$2000 one faculty member plus 3 students or postdoctorals.

Comments on previous FloHet conferences

- ▶ The best conference I have ever attended
- ▶ Very high level scientific program
- ▶ Excellent opportunity to network with speakers
- ▶ Nice mix of industrial and academic presentations
- ▶ I am very glad that I attended this conference
- ▶ I will strongly encourage my colleagues to attend
- ▶ Talks were excellent and the posters were great

View of Century Tower and Auditorium

Albert Padwa, Emory University, Katritzky Lecturer

Plenary Lecturers

Huw Davies, Emory University, US

Veronique Gouverneur, Oxford University, UK

Timothy Jamison, MIT, US

Peter Maienfisch, Syngenta, Switzerland

Christel Menet, Galapagos, Belgium

Tobias Ritter, Harvard University, US

Paul Scola, BMS, US

Jay Siegel, Tianjin University, PRC

Oliver Thiel, Amgen, US

Yoshinori Yamamoto, Tohoku University, Japan
