

Practical Course on High Throughput Protein Expression Screening

**Course Organisers: Ray Owens,
Joanne Nettleship & Louise Bird**

Invited Speakers:

Arnaud Poterszman (Dept Integrated Structural Biology, IGBMC, Illkirch).

Joop van den Heuvel (Helmholtz Centre for Infection Research, Braunschweig).

David Drew (Department of Biochemistry & Biophysics, Stockholm University).

Lawrence Kelley (Department of Life Sciences, Imperial College, London).

The course will provide hands-on experience of High throughput Protein Expression Screening with an emphasis on methods to study complex and 'difficult' targets, including complexes and membrane proteins.

Attending the course is FREE for participants from Academic Institutions (max. 16).

To apply please go to the OPPF-UK website, www.oppf.rc-harwell.ac.uk.

The deadline for applications is 31st March 2015

May 11th -15th 2015

Research complex at Harwell
