

**RSC Gold**

# Infinite answers. One place?

Available here: high quality research  
from a trusted society publisher

**Turn over to learn more**

**Fundamental questions  
Elemental answers**

We subscribe to the Royal Society of Chemistry's RSC Gold package, a comprehensive collection of high impact, multidisciplinary research from leaders in academia and industry.

### High profile, chemistry-led journals

Access articles in subject areas spanning chemistry and related disciplines:

Analyst	Food & Function	Nanoscale Horizons
Analytical Methods	Green Chemistry	Natural Product Reports (NPR)
Biomaterials Science	Inorganic Chemistry Frontiers	NJC (New Journal of Chemistry)
Catalysis Science & Technology	JAAS (Journal of Analytical Atomic Spectrometry)	Organic & Biomolecular Chemistry
ChemComm	Journal of Materials Chemistry A	Organic Chemistry Frontiers
Chem Soc Rev	Journal of Materials Chemistry B	PCCP (Physical Chemistry Chemical Physics)
CrystEngComm	Journal of Materials Chemistry C	Polymer Chemistry
Dalton Transactions	Lab on a Chip	Reaction Chemistry & Engineering
Energy & Environmental Science	Materials Chemistry Frontiers	RSC Medicinal Chemistry
Environmental Science: Nano	Materials Horizons	Soft Matter
Environmental Science: Processes & Impacts	Molecular Omics	Sustainable Energy & Fuels
Environmental Science: Water Research & Technology	MSDE (Molecular Systems Design & Engineering)	
Faraday Discussions	Nanoscale	

### 166 years of valuable discoveries

The journals archive contains every article published in RSC journals since the Chemical Society of London was founded in 1841. Track key scientific advances through history to explore how they are shaping our future.

### Handpicked significant scientific research

Five literature updating services feature vital research picked out by specialist editors.

### International perspective

RSC Gold represents authors, editorial boards and content from over 100 countries.

### Go beyond Gold

Access these gold and diamond OA journals whether or not you subscribe to RSC Gold:

Chemical Science  
Environmental Science: Atmospheres  
Materials Advances  
Nanoscale Advances  
RSC Advances  
RSC Chemical Biology

### Dedicated to chemistry education

As a teacher, researcher or related practitioner, *Chemistry Education Research & Practice (CERP)* gives you access to important research, reviews, practice evaluations and in-depth analyses of issues in chemistry education. Also free to access, the journal is a platform for researchers to present their findings, and for practitioners to use to enrich their teaching.
