

Journals Archive 1841–2007

- Allow your users to draw on 166 years of ground-breaking research
- Access all 260,000 original articles – all reference linked post-1990
- Purchase or lease available for flexibility
- Top titles include: *Chemical Communications*, *Dalton Transactions*, *Organic & Biomolecular Chemistry* and *Physical Chemistry Chemical Physics*
- An ideal way to complete your sets of journals and free up valuable shelf space

	ONLINE ONLY	
Journals Archive outright purchase (1841–2007)	£42,330	\$75,520
Journals Archive lease (1841–2007)	£7,631	\$13,658
Journals Archive outright purchase (2005–2007)	£5,013	\$8,602
Journals Archive hosting fee	£843	\$1,393

For the **future** of
the **chemical**
sciences

Highlights from the Journals Archive

The Journals Archive offers instant access to some of the most influential and highly cited articles in the field of chemistry, including:

- ▶ Magnetism and microfluids (*Lab on a Chip* 2006 Vol:6, Issue:1) – cited 76 times in 2011
- ▶ The environmental health implications of global climate change (*Journal of Environmental Monitoring* 2005 Vol:7, Issue:9) – co-written by Robert Watson, an authority in this field
- ▶ The electroluminescence of organic materials (*Journal of Materials Chemistry* 2000, Vol:10, Issue:7) – cited more than 1,000 times in total
- ▶ PLUS articles from an illustrious cast of Nobel Prize Winners such as Jean-Marie Lehn and Harold Kroto

Nobel prize winner Harold Kroto's most recent and most cited article

Articles from experts such as George Whitesides (Chair of the *Lab on a Chip* board)
