

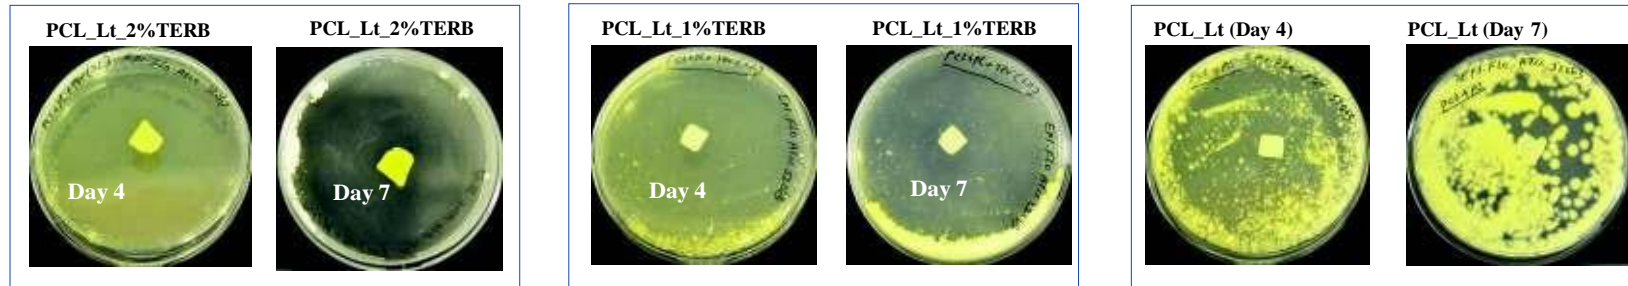

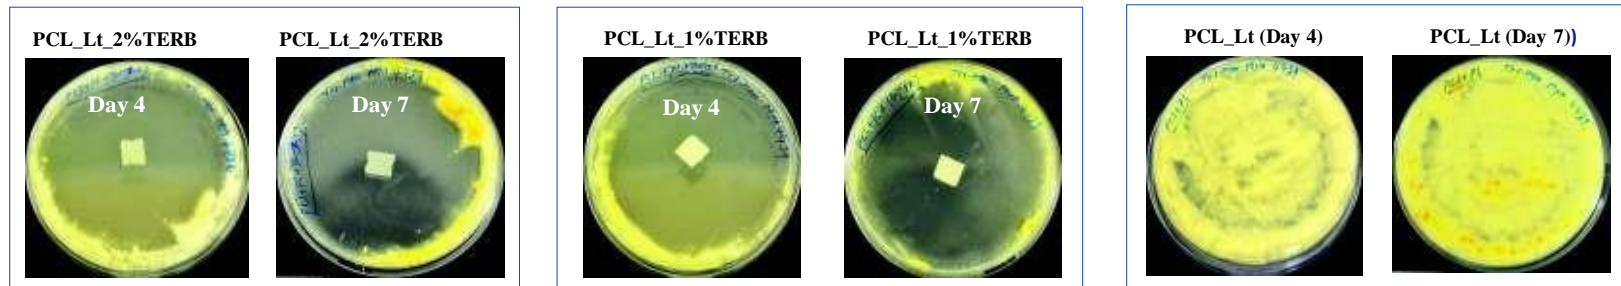

Figure S1 Radial disc diffusion assay of emulsion electrospun PCL mats containing various concentration of terbinafine hydrochloride. The last column is PCL mats loaded with terbinafine without lecithin.

Epidermophyton floccosum ATCC 52063

Trichophyton mentagrophytes ATCC MYA 4439

Trichophyton rubrum ATCC MYA-4438

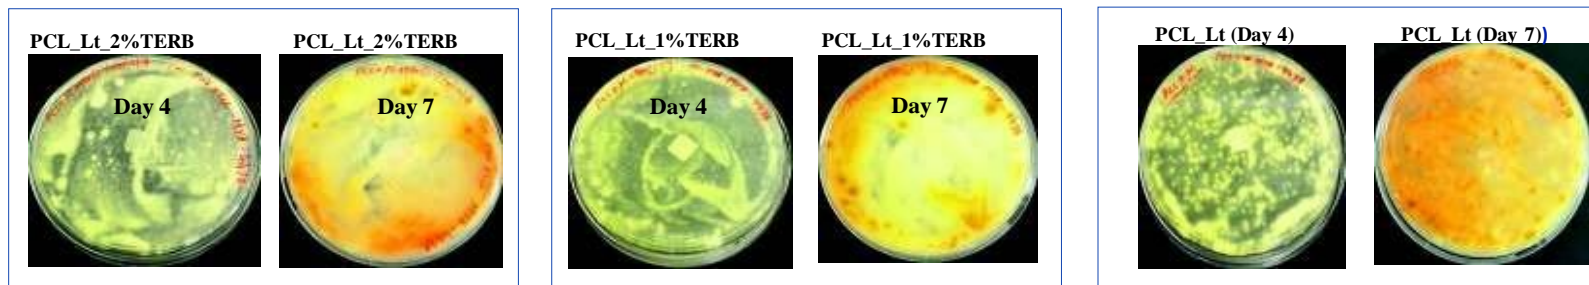

Figure S2 Radial disc diffusion assay of emulsion electrospun PCL mats containing terbinafine hydrochloride against dermatophytic fungi. The disc diffusion was analyzed at two different time points.
