Nanoscale iron carboxylate metal organic frameworks as drug carriers for magnetically aided intracellular delivery

Komal Sethi, Shalini Sharma and Indrajit Roy

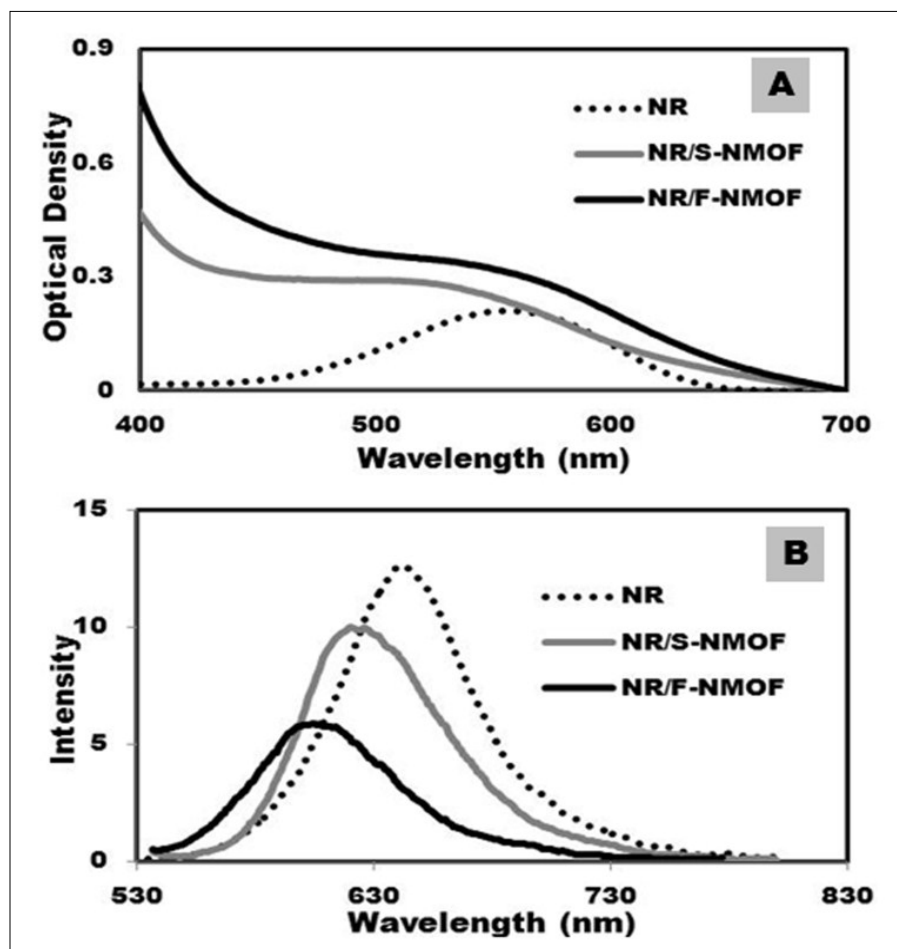

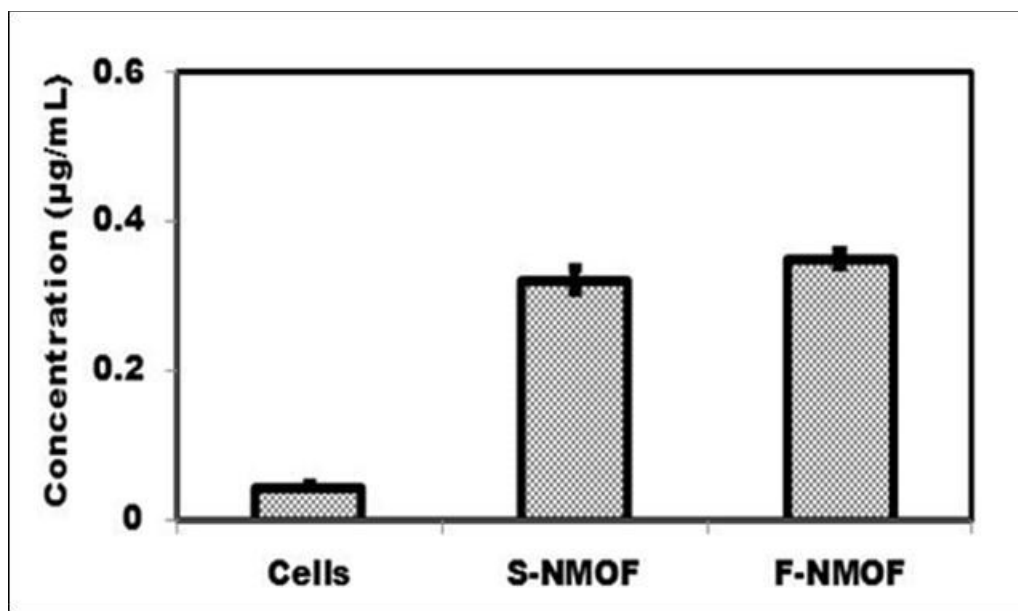

Figure S1: (A) Absorption, and (B) fluorescence emission spectra of free (NR) and nanoencapsulated (NR/S-NMOF and NR/F-NMOF) fluorophores.

*Figure S2: Comparative cellular uptake efficiency of S-NMOF and F-NMOF by analysing total intracellular Fe(III) concentration.*
