

Manuscript Ref.: B800052M

Title: Cobalt promoted copper manganese oxide catalysts for ambient temperature carbon monoxide oxidation

Authors: Christopher Jones, Stuart H. Taylor, Andrew Burrows, Mandy J. Crudace, Christopher J. Kiely and Graham J. Hutchings

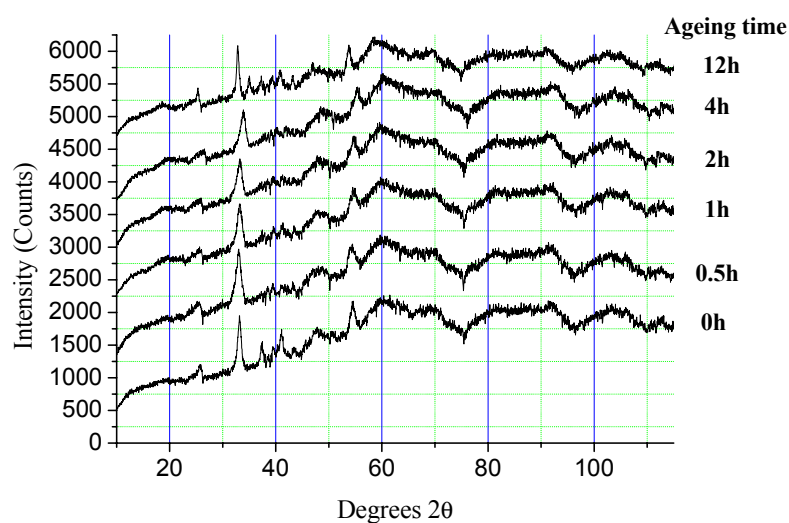

Figure 1: Powder X-Ray diffraction studies of CuMnO_x catalyst precursors prepared with a range of ageing times

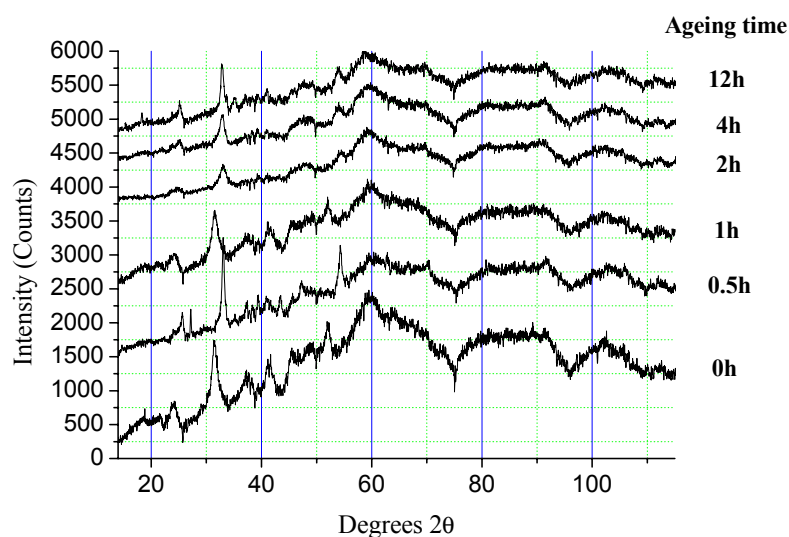

Figure 2: Powder X-Ray diffraction studies of 1%Co/CuMnO_x catalyst precursors prepared with a range of ageing times

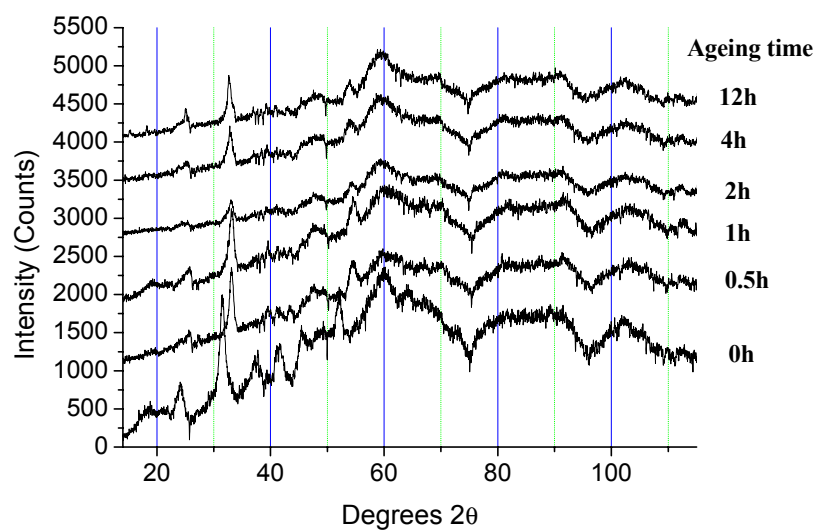

Figure 3: Powder X-Ray diffraction studies of 5%Co/CuMnO_x catalyst precursors prepared with a range of ageing times
