## Figures

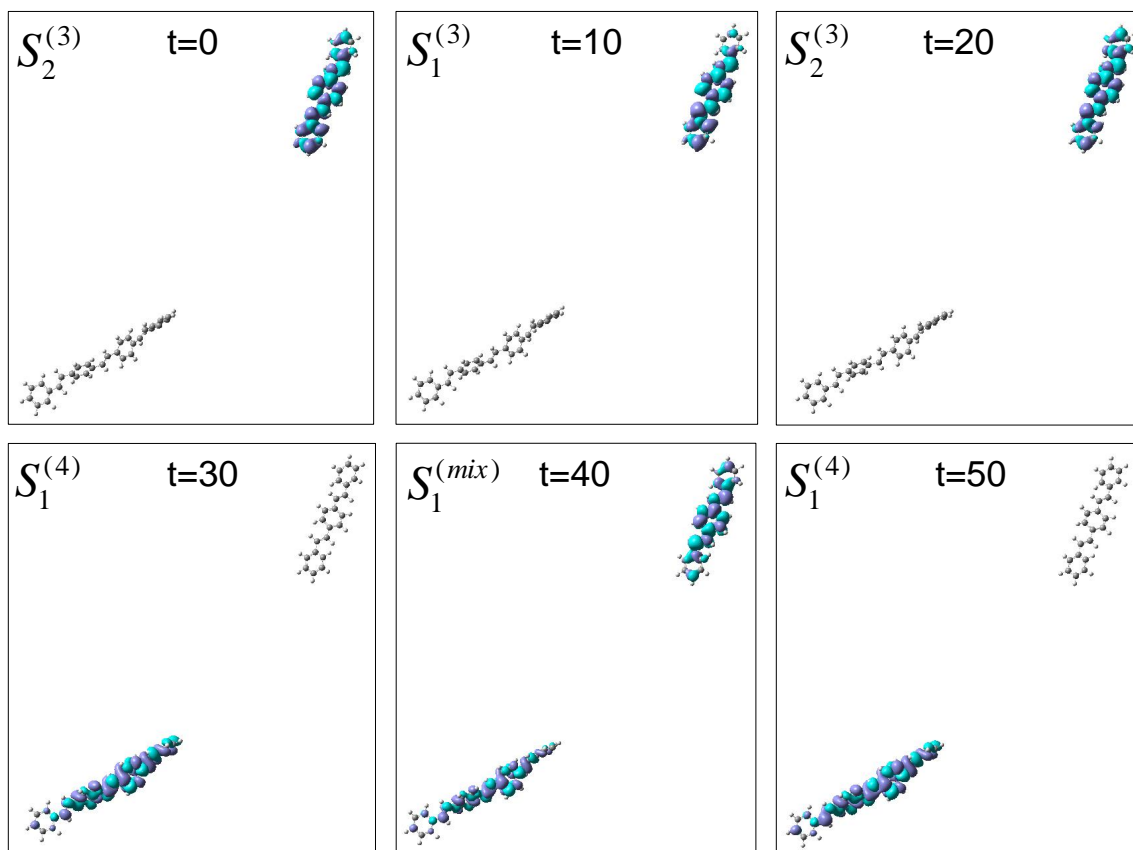

FIG. S1: Snapshots from the  $S_2^{(3)} \rightarrow S_1^{(4)}$  trajectory revealing the localization of the transition density and the conformational configuration. The time is given in femtosecond.

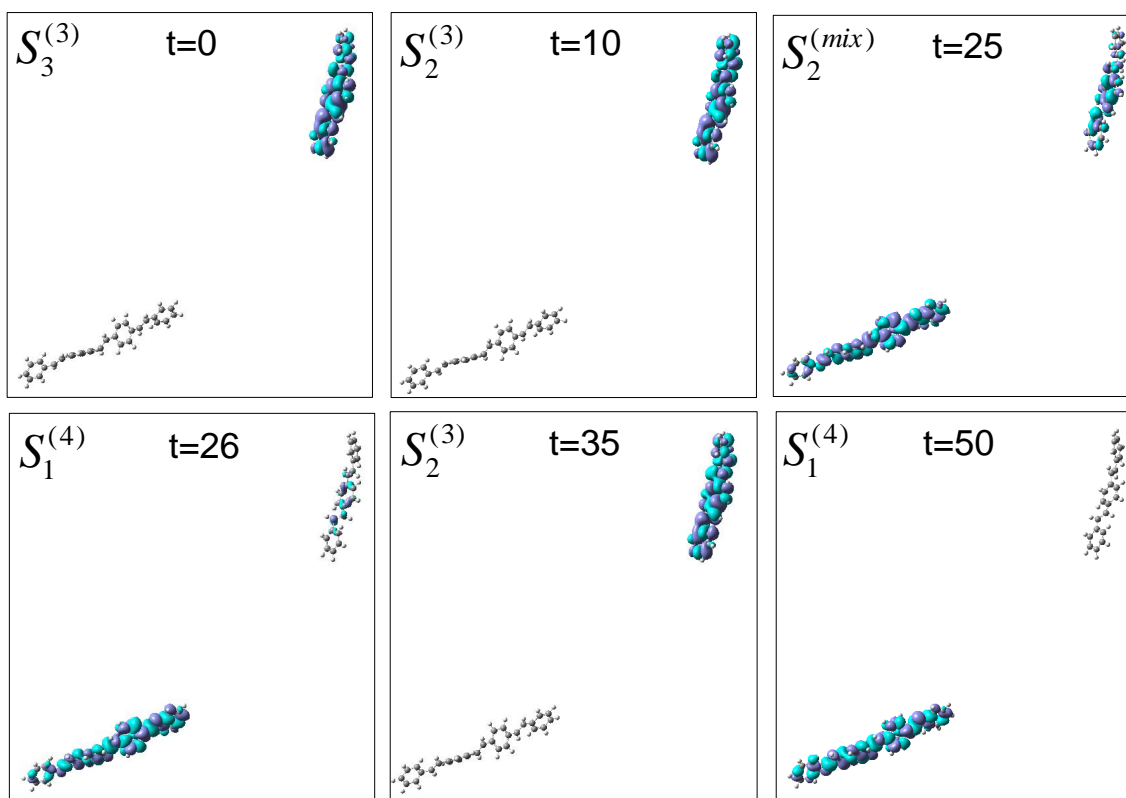

FIG. S2: Snapshots from the  $S_3^{(3)} \rightarrow S_1^{(4)}$  trajectory revealing the localization of the transition density and the conformational configuration. The time is given in femtosecond.
