The molecular weight of ATR is similar to that of ATM. The protein was run separately under the same conditions. The last hole of the protein band is the band generated by the remaining sample after adding high doses of compound 18. The bands of CHK1 and P53 are .

The molecular weight of ATR is similar to that of ATM. The protein was run separately under the same conditions.

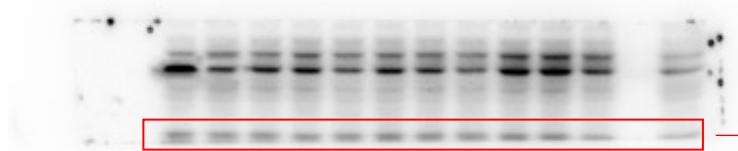

P53:

This protein band is P53.

Marker	+	-	-	-	-	-	-	-	-	-	-	-	-	-	+	-
DMSO	-	+	+	+	+	+	+	+	+	+	+	+	+	+	-	+
