

Table S1 The correlation between the storage modulus at 1Hz and protein structures of SPs

	The changing rate of the maximum fluorescence intensity	The changing rate of ellipticity at 202 nm	Surface charge
The storage modulus of samples at 20% (w/v)	0.883*	0.997**	-0.986**

** , p<0.01; * , p<0.05
