

Fig.S1 Raw data of α -SMA and E-cadherin for western blot in Fig. 4K-L. KMP-L: Low-dose of kaempferol group; KMP-H: High-dose of kaempferol group; PFD: Pirfenidone group.

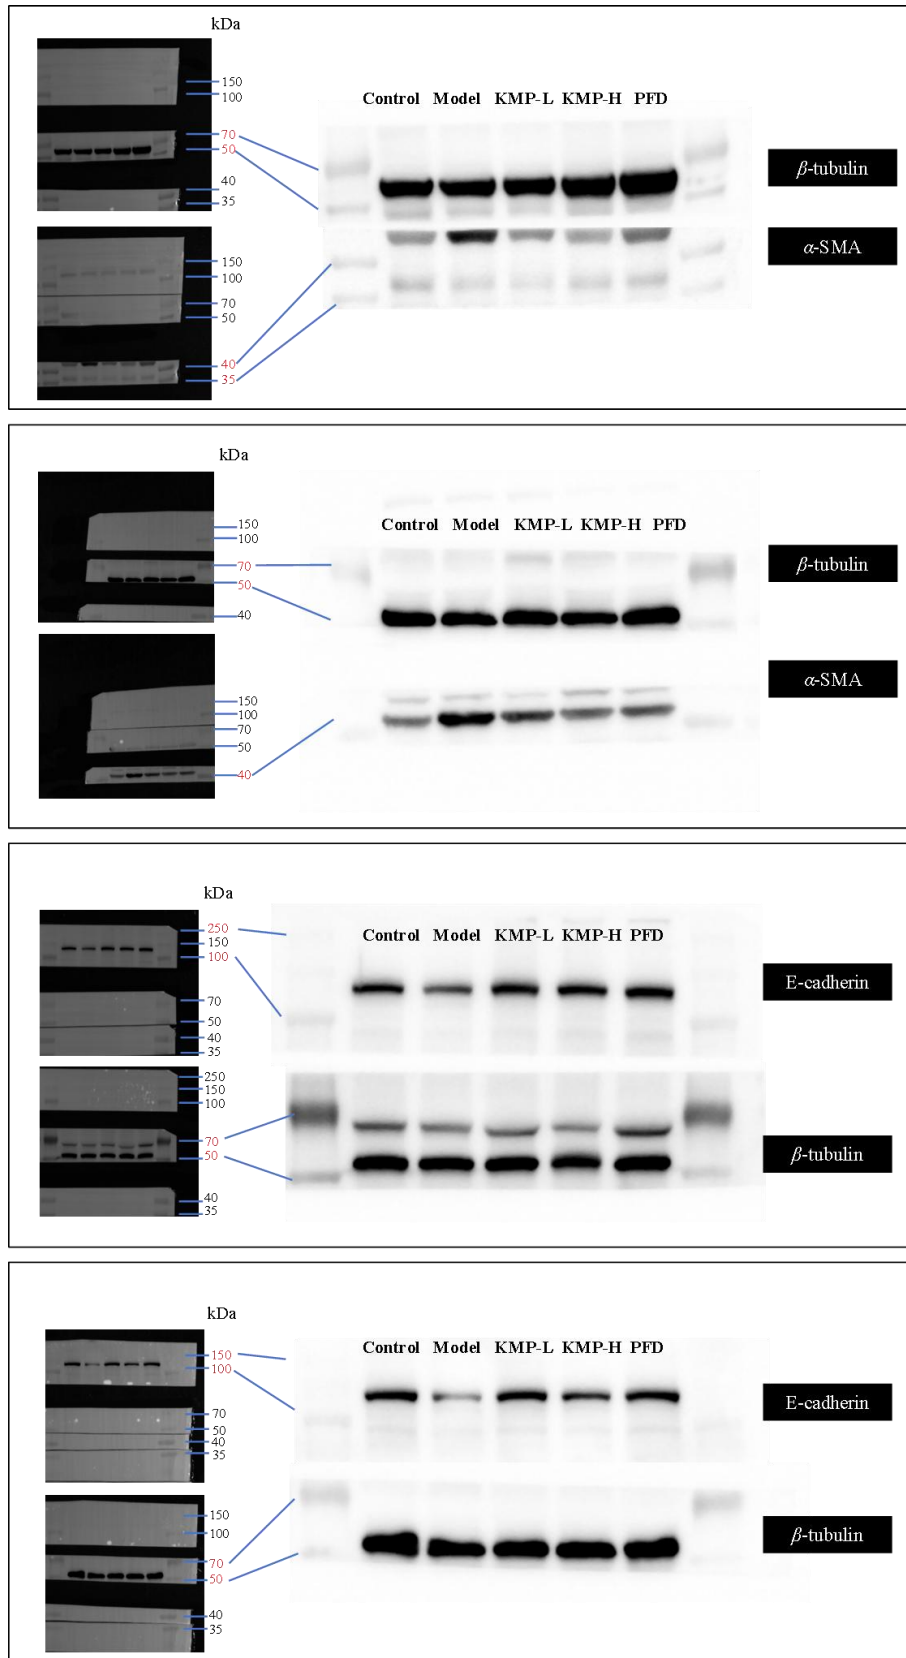

Fig.S2. The original data of α -SMA and E-cadherin for western blot statistics. KMP-L: Low-dose of kaempferol group; KMP-H: High-dose of kaempferol group; PFD: Pirfenidone group.

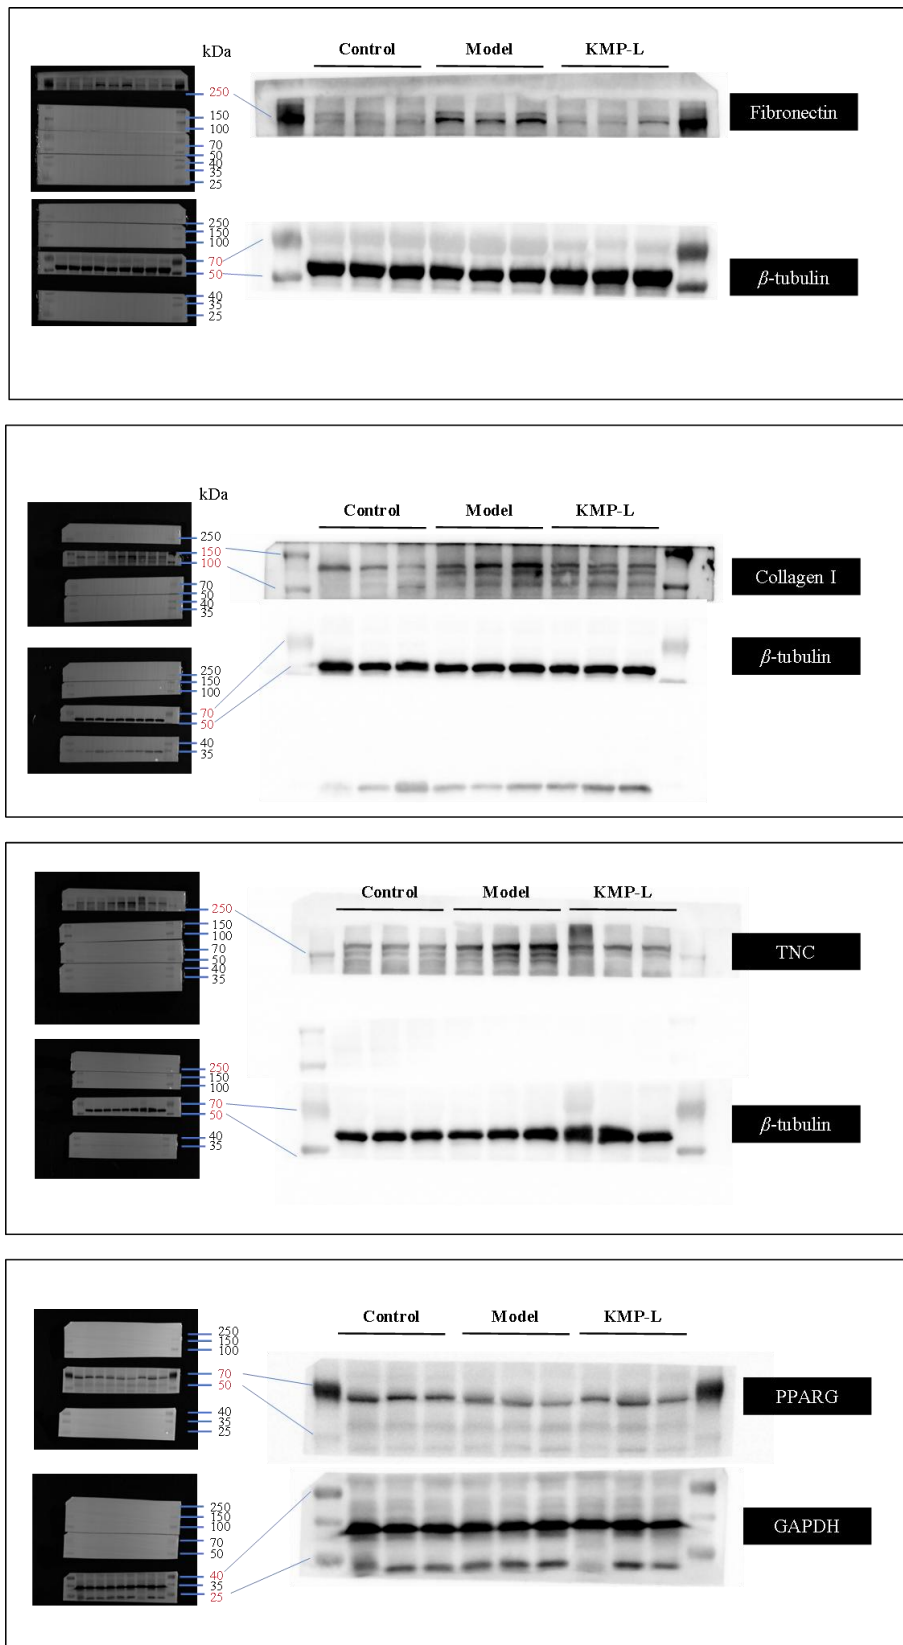

Fig.S3. Raw data of Fibronectin, Collagen I, TNC and PPARG for western blot in Fig. 8A. KMP-L: Low-dose of kaempferol group.

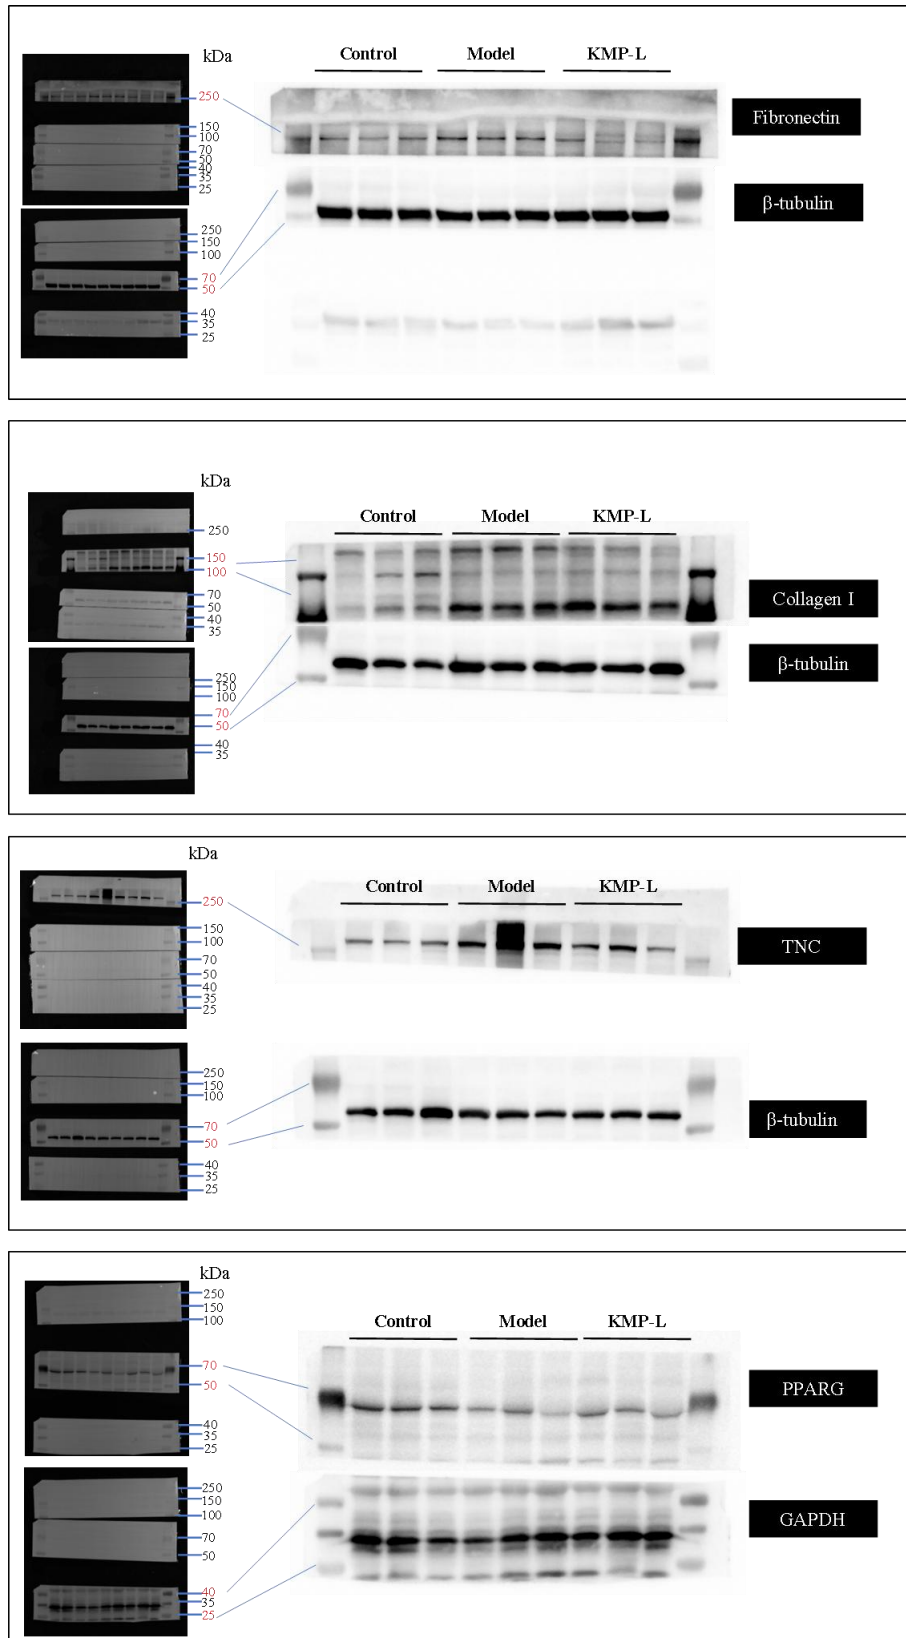

Fig.S4. The original data of Fibronectin, Collagen I, TNC, and PPARG for western blot statistics in Figure 8B. KMP-L: Low-dose of kaempferol group.
