

## Supplementary material

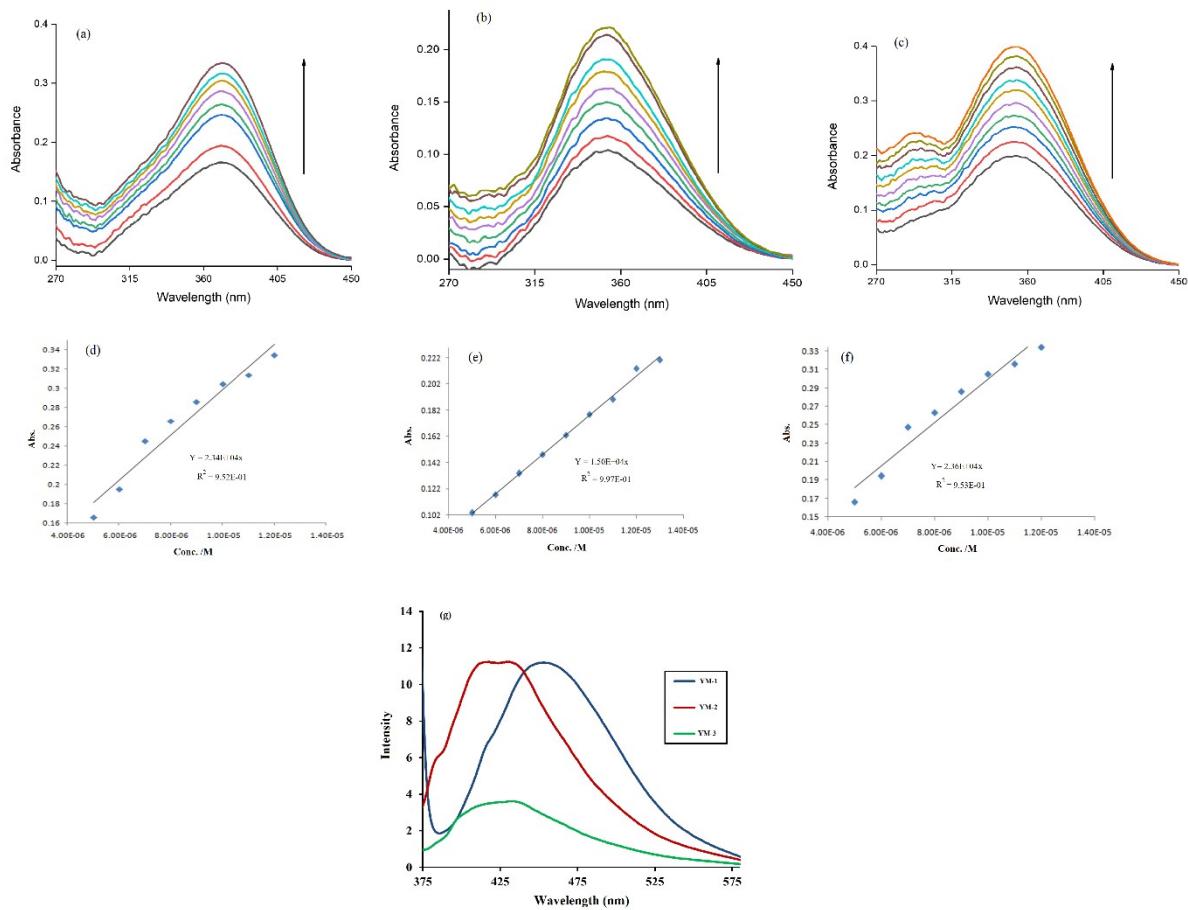

**Fig. S1.** (a) IR, (b)  $^1\text{H}$ -NMR, and (c)  $^{13}\text{C}$ -NMR spectra of YM-1.

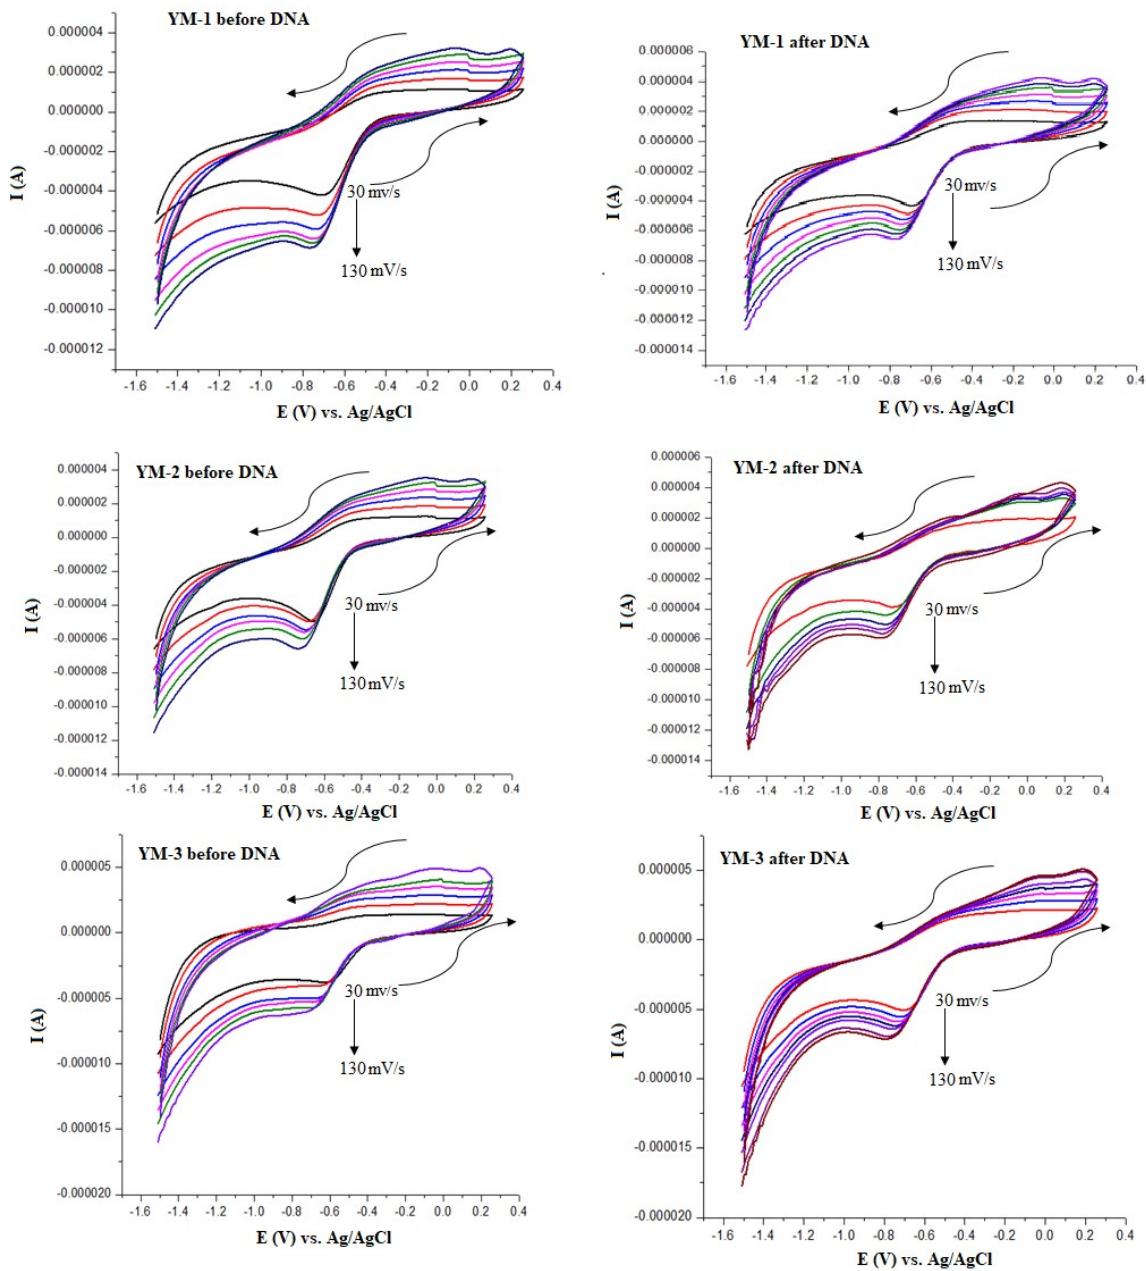

**Fig. S2.** (a) IR, (b)  $^1\text{H}$ -NMR, and (c)  $^{13}\text{C}$ -NMR spectra of YM-2.

**Fig. S4.** (a-c) Concentration profiles: (a) YM-1, (b) YM-2, and (c) YM-3. (d-f) Concentrations of YM-1, YM-2, and YM-3 plotted against absorbance for calculation of molar extinction coefficient. (g) Overlay of Fluo-emission spectrum of sufanilamide derivatives.

**Fig. S5.** Cyclic voltammogram YM-1, YM-2, and YM-3 without and in the presence of ds-DNA at various scan rates.
