S1. Contour plots with electric field direction

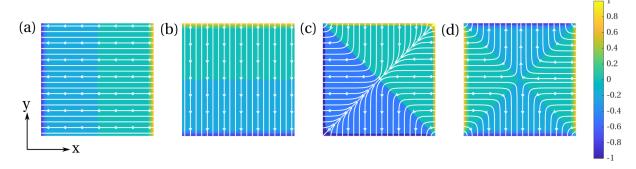

Figure 1: Contour plot with electric field applied in (a) x, (b) y, (c) both x & y direction with positive potential maintained at the top/right, and (d) left/right boundaries.

S2. Positive potential at left/right boundaries

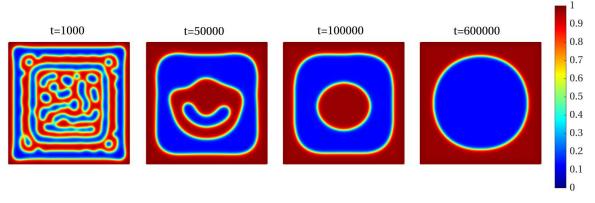

Figure 2: Time evolution of structure development in PIL blend in presence of electric field in both x and y direction with positive potential maintained at the left/right boundaries.
