Synthesis of Poly(vinylidene fluoride-co-bromotrifluoroethylene) and Effects of Molecular Defects on Microstructure and Dielectric Properties

Matthew R. Gadinski, Chalatorn Chanthad, Kuo Han, Lijie Dong, Qing Wang

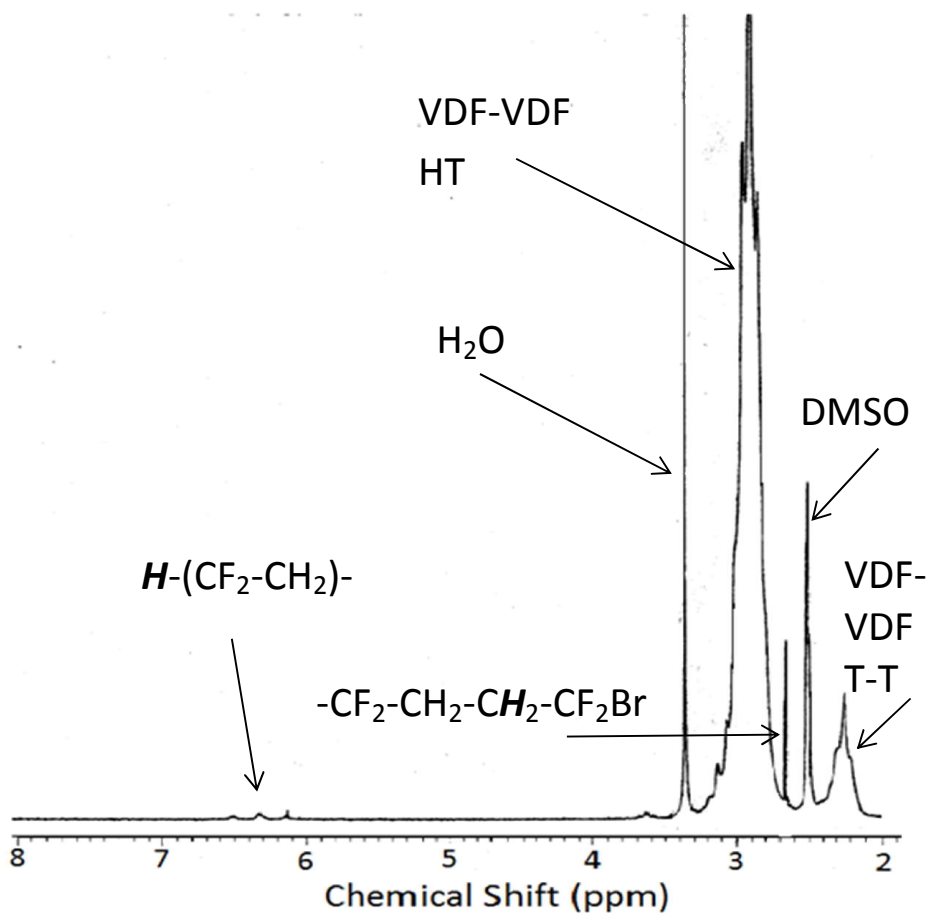

Figure S1. ¹H NMR spectrum of PVB7 in DMSO-d₆ against TMS internal standard for 299 MHz reference frequency at room temperature.

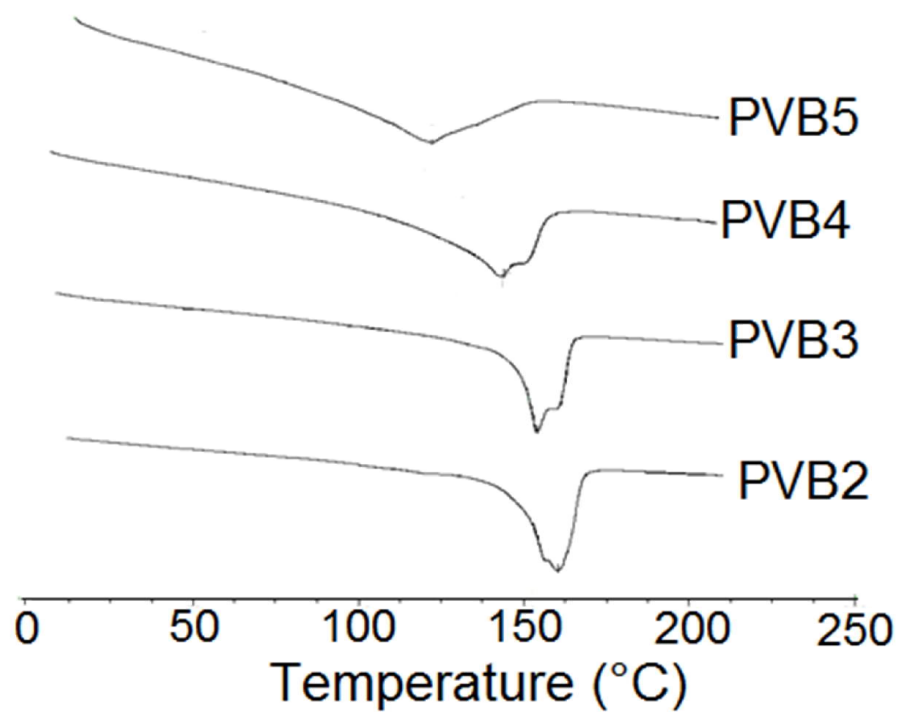

Figure S2. Melting Endotherms from DSC of Selected Copolymers at a rate of 10° C/min (no Curie transition is observed due to stabilization of the α phase and overlap with melting).
