
Electronic Supplementary Information for

Fabrication of Nylon-6/POMs nanofibrous membranes and the degradation mustard stimulant research

Feng Liu,^a Qifang Lu,^b Xiuling Jiao,^{a,*} Dairong Chen,^{a,*}

^aSchool of Chemistry & Chemical Engineering, National Engineering Research Center for Colloidal Materials, Shandong University, Jinan 250100, P. R. China.

^bShandong Provincial Key Laboratory of Processing and Testing Technology of Glass & Functional Ceramics, Qilu University of Technology, Jinan 250353, P. R. China.

Table S1 GC-MS for standard curve

Number	0	1	2	3	4	5
HD standard solution (mL)	0	0.1	0.2	0.5	0.8	1
CH ₂ Cl ₂ (mL)	1	0.9	0.8	0.5	0.2	0
HD absolute content (μL)	0	0.1	0.2	0.5	0.8	1
Peak area	0	56457071	100660720	198493978	321187005	382276345
